

Inspiring creativity...

PEDESTAL BC BUZON THIRD GENERATION

Architect : Xavier Jeanette (Liège)

Unlimited solutions for your next paving project or water fountain

There are no boundaries to your creativity!

The BC Series adopts a new method of fixing tabs to separate pavers, inspiring creative architecture and exploring new horizons.

Independent tabs are fixed to the head of the pedestal and thanks to the unique 360° rotation, the space between the pavers will match perfectly.

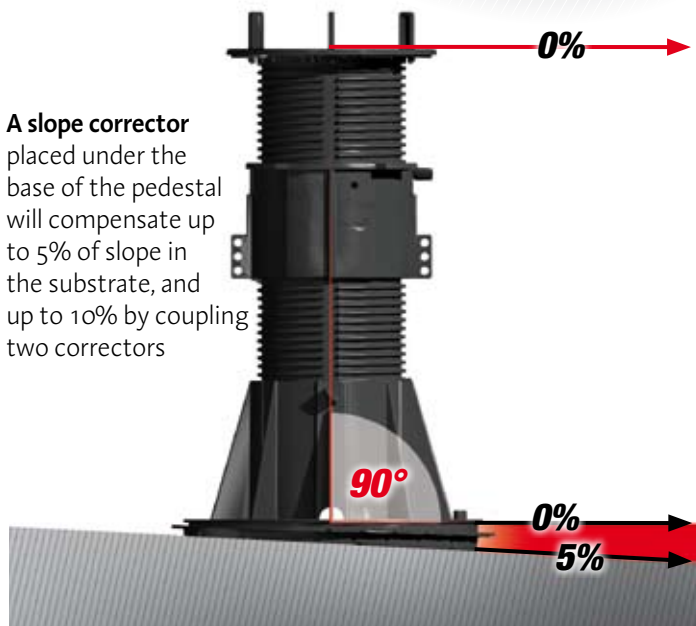

Screwjack Pedestal BC-5
adjustable from 100 mm to 200 mm

Slope corrector

A slope corrector placed under the base of the pedestal will compensate up to 5% of slope in the substrate, and up to 10% by coupling two correctors

Upon request* we can supply 3D files to architects and engineers. These files are compatible with main architectural software packages thereby allowing the integration of Buzon pedestals in the plans.

*Schedule of conditions on request.

Complete range of adjustable screwjack pedestals from 45 to 1030 mm

Compression test on request
