**Height range**

11/16", fixed height.  
Addition of PH5 slope corrector gives 0-5% slope correction. Height with PH5: 1 1/32".

**Material**

Co-polymer polypropylene (CPP), material thickness 1/16" to 13/64". Composition: 80% CPP recycled, 20% talc + UV master batch black, and 100% recyclable.

**Dimensions**

Base - diameter 6 11/16", surface area 35.185 sq inch.  
Top - diameter 5 45/64", surface area 25.575 sq inch.

**Performance characteristics**

Resistant to aging, poor weather conditions, UV light, almost all chemicals, and rot proof. Suitable for use in temperatures from -22°F to +194°F.

**Application**

Support for raised decks. Can support any type of timber decking or ceramic, stone, concrete paving or flag material, as well as fibreglass or metal grid panels. Suitable for any kind of stable substrate, including applications directly over insulation panels.

**Slope corrector PH5**

Can be simply and quickly fitted to the pedestal. Provides slope correction from 0-5% (in 0.5% increments). Adds 23/64" to the overall height of the pedestal.

**Accessories**

**Spacer tabs:** For achieving uniform spaces between used decking material. Available in 1/16, 1/8, 3/16, 1/4, 5/16 and 25/64 Inches. Fixed to top of pedestal by clipping in only. Tab heights: 11/16" or 1" dependent on tile thickness.

Technical data sheet

DPH-5-PH5 - height 3 15/16” - 6 7/8”

Height range
Adjustable uninterrupted from 3 15/16” to 6 7/8” with slope correction of 0-5%.

Composition
The DPH-5-PH5 is comprised of 4 components (base, head, slope corrector and adjustment ring) and 4 security locking keys.

Material
Co-polymer polypropylene (CPP), material thickness 1/16” to 13/64”.
Composition: 80% CPP recycled, 20% talc + UV master batch black, and 100% recyclable.

Dimensions
Top - diameter 6 1/8”, surface area 29.140 sq inch.
Base - diameter 7 7/8”, surface area 48.670 sq inch.

Performance characteristics
Resistant to aging, poor weather conditions, UV light, almost all chemicals, and rot proof.
Suitable for use in temperatures from -22°F to + 194°F.

Application
Support for raised decks. Can support any type of timber decking or ceramic, stone, concrete paving or flag material, as well as fibreglass or metal grid panels.
Suitable for any kind of stable substrate, including applications directly over insulation panels.

Integral slope corrector
Pre-integrated in the head of the pedestal.
Provides slope correction from 0-5% (in 0.5% increments).

Load capacity
(lb/lbf) = 1 kg/f = 2.23 lb/f
Tests executed with load bearing on central (1/1), half (1/2) and quarter (1/4) position on the pedestal.

Position | Height (Inch) | Slope | Load (daN) | Load (lbf)
--- | --- | --- | --- | ---
1/1 | 6 7/8 | 5% | 1690 | 3768
1/2 | 6 7/8 | 5% | 1205 | 2687
1/4 | 6 7/8 | 5% | 862 | 1923

Safety recommendation for use of Buzon Pedestals System :
1. Areas reserved for pedestrian access : divide the load indicated in the table by 2 with an addition safety factor of -15%.
2. Areas reserved for industrial and technical applications : divide the load indicated in the table by 4 with an addition safety factor of -15%.
3. The Buzon Pedestals System is not designed to support or be subjected to vibrating and/or moving machinery & equipment, including maintenance & cleaning vehicles, automobile & other vehicles, etc...

Keys: security locking key to fix pedestal at the height required.

Spacer tabs: For achieving uniform spaces between used decking material. Available in 1/16, 1/8, 3/16, 1/4, 5/16 and 25/64 Inches.
Fixed to top of pedestal by clipping in only. Tab heights: 11/16” or 1” dependent on tile thickness.

Available with tab widths of 1/16, 3/16, 1/4, 5/16 and 25/64 Inches

Joist support: Supports timber, aluminium or composite joists for most decking systems.

Shim: Enhances acoustic performance and can help leveling uneven paving materials.

Joist max. 2 9/16”
Thickness 5/32”

1/32” and 1/16” thickness
EPDM -60 Shore

Accessories
Spacer tabs: For achieving uniform spaces between used decking material. Available in 1/16, 1/8, 3/16, 1/4, 5/16 and 25/64 Inches.
Fixed to top of pedestal by clipping in only. Tab heights: 11/16” or 1” dependent on tile thickness.

Available with tab widths of 1/16, 3/16, 1/4, 5/16 and 25/64 Inches

Joist support: Supports timber, aluminium or composite joists for most decking systems.

Shim: Enhances acoustic performance and can help leveling uneven paving materials.

Joist max. 2 9/16”
Thickness 5/32”

1/32” and 1/16” thickness
EPDM -60 Shore

Safety recommendation for use of Buzon Pedestals System :
1. Areas reserved for pedestrian access : divide the load indicated in the table by 2 with an addition safety factor of -15%.
2. Areas reserved for industrial and technical applications : divide the load indicated in the table by 4 with an addition safety factor of -15%.
3. The Buzon Pedestals System is not designed to support or be subjected to vibrating and/or moving machinery & equipment, including maintenance & cleaning vehicles, automobile & other vehicles, etc...

**Technical data sheet**

**DPH-6-PH5** - height 6 7/8" - 11 7/32"

**Keys:** security locking key to fix pedestal at the height required.

### Height range
Adjustable uninterrupted from 6 7/8" to 11 7/32" with slope correction of 0-5%.

### Composition
DPH-5-PH5 pedestal plus 1 coupler (DPH-C2) and 6 security locking keys.

### Material
Co-polymer polypropylene (CPP), material thickness 1/16" to 13/64".
Composition: 80% CPP recycled, 20% talc + UV master batch black, and 100% recyclable.

### Dimensions
Top - diameter 6 1/8", surface area 29.140 sq inch.
Base - diameter 7 7/8", surface area 48.670 sq inch.

### Performance characteristics
Resistant to aging, poor weather conditions, UV light, almost all chemicals, and rot proof.
Suitable for use in temperatures from -22°F to +194°F.

### Application
Support for raised decks. Can support any type of timber decking or ceramic, stone, concrete paving or flag material, as well as fibreglass or metal grid panels.
Suitable for any kind of stable substrate, including applications directly over insulation panels.

**Integral slope corrector**
Pre-integrated in the head of the pedestal.
Provides slope correction from 0-5% (in 0.5% increments).

### Accessories
- **Spacer tabs:** For achieving uniform spaces between used decking material. Available in 1/16, 1/8, 3/16, 1/4, 5/16 and 25/64 Inches. Fixed to top of pedestal by clipping in only. Tab heights: 11/16" or 1" dependent on tile thickness.

### Load capacity (I daN = 1kg/f = 2.23lb/f)
Tests executed with load bearing on central (1/1), half (1/2) and quarter (1/4) position on the pedestal.
